

No	Group member	Paper Presentation (25%)	Paper Review work (25%)	Research Title
1.	1 Afomiya Ketsella			A Comparative Study of Requirement Analysis Methods in Software Development
	2 Hana Teshome			
	3 Afrah Maruf			
2.	1 Temesgen Berhanu			Emerging Trends in Software Engineering ✓ Overview of current trends in software engineering ✓ Impact of emerging technologies on software development
	2 Lemma Getiye			
	3 Tekleeyesus Munye			
3.	1 Arsema Degu			DevOps and Continuous Integration/Continuous Deployment (CI/CD) ✓ Principles and practices of DevOps ✓ - Tools for CI/CD (e.g., Jenkins, GitHub Actions, GitLab CI)
	2 Tsion Bantegize			
	3 Tsedenya Emkedemealem			
	4 Rediet Berhanu			
4.	1 Bemnet Ayalew			Microservices Architecture ✓ Designing scalable and maintainable systems ✓ Tools and frameworks for microservices (e.g., Docker, Kubernetes, Spring Boot)
	2 Samuel Tiruneh			
	3 Yoseph Chalie			
5.	1 Ayalnesh Worku			AI-Driven Software Development ✓ AI-powered tools for code generation and testing ✓ Applications of machine learning in software development
	2 Ehitumusie Nebiyu			
	3 Fikerte Kiflu			
6.	1 Rodas Enyew			Social and Ethical Implications of Software Engineering ✓ Ethical considerations in software design and development ✓ - Addressing bias and promoting fairness in software systems
	2 Nebiyu Elias			
	3 Rediat Molla			
7.	1 Bezawit Megersa			Emerging Software Development Paradigms ✓ Event-driven and serverless computing ✓ Domain-driven design (DDD)
	2 Rebika Yhinew			
	3 Melat Mekonnen			
8.	1 Marta Ejigu			Software Sustainability
	2 Betelhem Tsega			
	3 Bezawit Mamo			

				✓ Principles of sustainable software development ✓ Reducing energy consumption and improving efficiency in software systems
9.	1	Blen Bizuayehu		Component-based development ✓ Components and component models ✓ CBSE processes ✓ Component composition
	2	Lidiya Getale		
	3	Bisrat Teshome		
10.	1	Hana Daregot		Applying Design Patterns to Improve Software Quality and Maintainability
	2	Gelila Dawit		
	3	Yonatan Assefa		
11.	1	Henok Enyew		Aspect-oriented architecture ✓ The separation of concerns ✓ Aspects, join points and pointcuts ✓ Software engineering with aspects
	2	Ermias Desalegn		
	3	Ephrem Ketachew		
12.	1	Ehenew Amogne		Distributed software engineering ✓ Distributed systems issues ✓ Architectural patterns for distributed systems ✓ Software as a service
	2	Henok Mulat		
	3	Abubeker Ali		
13.	1	Wondesen Getaneh		Embedded software ✓ Embedded systems design ✓ Architectural patterns ✓ Timing analysis ✓ Real-time operating systems
	2	Wbamlak Grum		
	3	Hibritu Dires		
14.	1	Yoseph birhanu		Software reuse ✓ The reuse landscape ✓ Application frameworks ✓ Software product lines ✓ COTS product reuse
	2	Zelalem fissha		
	3	Milete Tsegazeab		
15.	1	Betremariam Yihenew		Formalizing Open Source Software Quality Assurance Model by Identifying Common Features from Open Source Software Projects
	2	Surafel Muhabaw		
	3	Nigist Abayneh		
16.	1	Bekalu Eshete		Advance Security and Challenges with Intelligent IoT Devices
	2	Markos Teshome		
	3	Abraham Shiferaw		
	4	Gebeyaw belayneh		
17.	1	Bereket Alemayehu		Deep learning based software maintenance
	2	Estifanos Kelemu		
	3	Eyob Yihalem		

18.	1	Thiobista Gedefaw			Hybrid deep learning Techniques for software Testing and Evaluation
	2	Rahel Yekoye			
	3	Tigist Negussie			
19.	1	Yonas Awoke			Hybrid deep learning Techniques for Malware detection
	2	Biruk Temesgen			
20.	1	Yordanos Molla			Modeling and Verification of Software Systems Through Formal Languages
	2	Binyam Tamiru			
	3	Fasikaw Birhan			
21.	1	Mulualem Tarekegn			Traditional vs. Modern Requirement Elicitation Techniques: A Comparative Study
	2	Yohannes Alemu			
	3	Christian Abraham			
	4	Bereket Melese
